

El Paso also states that in order to facilitate Mexcobre's request for natural gas service, El Paso and Mexcobre agreed, by Letter Agreement dated March 17, 1998, that El Paso would: (i) install a 12-inch tap and valve assembly on Line No. 1004; and (ii) cause the construction of, on El Paso's behalf, a dual 8-inch meter station (Mexcobre-Douglas Delivery Point) and approximately 1.15 miles of 16-inch-diameter pipeline (Mexicana de Cobre Lateral Line) extending from the proposed delivery point to the International Boundary between the United States and Mexico in Cochise County, Arizona.

El Paso states that by this application, it is seeking authorization for the construction and operation of the proposed Mexcobre-Douglas Delivery Point; and that as for the Mexicana de Cobre Lateral Line, El Paso states that it will construct and operate this line under Section 157.208(a) of the Commission's Regulations.

El Paso states that concurrently, it is filing an application, pursuant to Section 3 of the NGA and Subparts B and C of Part 153 of the Commission's Regulations Under the NGA, for Section 3 authorization and a Presidential Permit regarding the proposed pipeline facilities at the International Boundary between the United States and Mexico.

El Paso also states that construction and operation of the proposed Mexcobre-Douglas Delivery Point is not prohibited by El Paso's existing Volume No. 1-A Tariff, and that it has sufficient capacity to accomplish the deliveries of the requested gas volumes without detriment or disadvantage to El Paso's other customers.

El Paso states the total estimated cost of the proposed Mexcobre-Douglas Delivery Point is \$266,300, and that the estimated cost of the Mexicana de Cobre Lateral Line is \$338,300. El Paso indicates that Mexcobre has agreed, pursuant to the March 17, 1998 Letter Agreement, to reimburse El Paso for all actual costs related to construction of the proposed Mexcobre-Douglas Delivery Point and the Mexicana de Cobre Lateral Line.
